Subject: Closure of forest roads

Effective immediately all roads west of the Klickitat river are closed due to extreme fire behavior from the Cougar Creek fire. The fire has reached the Cunningham creek drainage and is threatening the #255 road east of the drainage, and has bumped up next to the Mount Adams lake road north of Cunningham Creek. For public safety and the safety of resources working the fire we ask for your cooperation.

For any questions or updates you may contact Fire Management at (509)865-6653 or visit the Fire website at [Yakamanationfire.com](http://Yakamanationfire.com).
